Icarus 600 PRO Drop-In Electric Chargrill

Model ID : IG600PRODIUK

Proudly Australian made, the 600 PRO Drop-In Electric Chargrill delivers true hard-fuel cooking performance through advanced Icarus electric heat technology, in a fully integrated built-in format. Designed to drop seamlessly into custom benchtops, it generates extreme, penetrating temperatures for superior searing, charring, and fast recovery – without gas or solid fuel. Featuring two Icarus SGR Heating Elements and a separate mountable control box, the 600PRO Drop-In is a commercial-grade grill engineered for premium global kitchen projects.

Description	Information
