Icarus 900 Electric Benchtop Chargrill

Model ID : IG900UK

Proudly Australian made, the Icarus 900 Electric Chargrill mimics hard-fuel cooking performance through advanced Icarus electric heat technology. Designed for commercial kitchens, it generates extreme, penetrating temperatures for superior searing, charring, and fast recovery – without the need for gas or solid fuel. Featuring two Icarus SGR Heating Elements, the 900 is a fully finished, commercial-grade solution built for professional kitchens worldwide.

Description	Information
Power Supply	3Phase 20Amp 415vac 50Hz (Only utilises 2 Phases)
Electrical Power Cord	1M Lead on Power Plug, set with 32A 5p 6h IP44/IP54 SHARK Plug, at rear.
Energy Consumption	8.64 kW (at 100% use of power)
Burners/Cook Zones	2x Internal Icarus SGR Heating Elements
External Dimensions	900mm x 700mm x 780mm
Cook Zone Dimension	734mm x 496mm
Weight Of Chargrill	190kg
Construction	• 304 Grade Stainless Steel Chassis • Cast Iron Enamel Chargrill plates. • Internal Armorax Refractory Hearth. • Fully insulated internals rated to 1260.C
